About Us

Northern Connectors is a specialist technical distributor of electrical connectors and associated products intended for use in demanding environments.

Since our establishment in 1983 we have become one of the UK's most trusted and respected connector distributors.

In our 40 years we have worked hard to gain a high level of technical and logistical competence which has led us to be a go-to source for customers requiring a robust connector solution.

We regularly assist our customers with their prototyping needs when they are designing a new product and can facilitate full production volumes with fixed pricing, stock agreements and scheduled orders.

Why Choose Us?

At Northern Connectors we pride ourselves on excellent service and our dedicated specialists are with you every step of the way throughout the buying process.

Authorised Partner

Longstanding authorised distribution partners for many of the industry's leading manufacturers.

Credit Accounts

30 day credit accounts offered as standard to simplify the ordering process.

Technical Expertise

We have in-house technical product specialists and full manufacturers support.

Personalised Support

We have designated Sales Coordinators to cater for your specific needs.

Scheduled Orders

We can facilitate your Kanban, Just-in-Time requirements and scheduled orders over a 12 month period.

Certification

Our quality management system is certified to ISO 9001 standards.

Large Inventory

We have over £1m of inventory spread across 1000's of lines.

Next Day Delivery

Next day delivery is standard on stocked items for orders received before 3.30pm.

Products

At Northern Connectors we offer a fantastic range of products and solutions which cater for a wide spectrum of applications.

Cable Conduit

High-quality systems for concealing and protecting cables from sharp objects, impact and moisture.

Cable Glands

Perfect for offering strain relief and ingress protection to permanent cable installations.

Data Connectors

Compact solutions enabling seamless data transmission between machines, sensors and controllers within industrial networks.

D-Sub Connectors

Versatile connectors available in a variety of styles including high density, standard, filter, combination and waterproof.

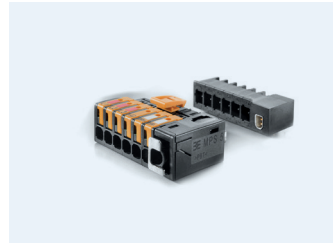

Food & Beverage Connectors

Connectors optimised for the rigorous quality control, hygiene and safety standards of the food and beverage industry.

Harsh Environment Connectors

Highly durable connectors which offer ingress protection in the most demanding environments.

PCB Connectors

Versatile products designed to enable the assembly of electronic devices and equipment.

Photovoltaic Connectors

Connectors which ensure reliable, simple and long-lasting connections across photovoltaic systems.

Power Connectors

Robust solutions capable of handling extremely high-power inputs.

RF Coaxial Connectors

High-spec connectivity designed specifically to function at radio frequencies in the multi-megahertz range.

Sensor & Automation Connectors

Compact yet robust connectors designed for sensing technology in challenging factory automation applications.

Valve & Actuator Connectors

Flexible low-cost connectors offering excellent protection and boasting numerous built in electronic components.
